

DUPONT COUNTRY CLUB - BRANTWYN RENOVATION

GREENVILLE, DELAWARE

Converting this lovely and historic childhood home of a former governor of Delaware into a modern multiuse facility was a labor of love, as well as a tremendous challenge technically. Due to the customer's vision of future uses for this structure, much of the interior space and antiquated mechanical and electrical systems required reconstruction. Special challenges included the addition of a commercial kitchen, an elevator, and other ADA requirements. Camouflaging the updated HVAC and sprinkler systems within the architectural elements preserved its historic beauty. Weddings, banquets, and other social occasions now take place on the beautifully landscaped grounds of Brantwyn.
