

Food Service Projects

SC&A Construction, Inc. has a broad spectrum of experience in many different types of construction projects that involve Food Service as a part of the facilities. From cafeterias, restaurants, dining areas, kitchens and food prep areas, our expertise and knowledge help our clients choose the best fit for their project, whether it is commercial or residential. We have trained professionals on staff who are able to work with the State Board of Health and County officials to make sure that all guidelines are being properly followed for the health and safety of all areas. We work closely with our client's designers, architects and engineers to stay on schedule and meet all budget needs. Below is a partial list of projects managed by SC&A that involve Food Service Facilities.
