To whom it may concern:

I am writing this letter to tell you how pleased we are with the relationship we had with Snyder Crompton & Associates during the building of our Youth and Music wing.

We received bids from six general contractors and selected three to interview. We developed our own set of criteria to judge the candidates and basically let them make their sales pitch in any way they saw fit. On of the things that impressed us about SC&A was that they had done several other church projects; from renovations to additions to new structures. We felt they understood the unique needs of a church. We need quiet during a funeral and reception. We cannot have jack hammers blasting when there is a lecture in our Auditorium. Work stoppages had to be anticipated.

Another thing which impressed us was their approach to safety. Since they do so much work for the DuPont Company, it was expected that they would put emphasis on safety. They were one of the few companies that had a safety officer on the payroll.

Obviously (since you are reading this letter) we were not disappointed. Their site supervisor was wonderful to work with. He understood the needs of the church and responded to our requests with speed and respect. SC&A did a wonderful job of selecting sub contractors. We did not hear one complaint about the way the subs conducted themselves on the job.

SC&A finished the job within the time frame promised and within budget, give or take a few % points. Most of the overages could be traced to changes we authorized during the construction process.

If you are planning to have some work done on your church, I suggest that you give Snyder Crompton & Associates serious consideration.

In His service,

Royal Lowthert  
Church Business Administrator
