Dear Tom,

It is with tremendous gratitude that I write this letter of appreciation and recommendation to you. It is not often that the relationship between contractor and client is one of a team partnership. I can say with confidence that was our experience with our Master Plan project and remains today.

Throughout our projects (2005-2007), SCA has always proceeded with our best interests in mind. As with any construction job, there are obstacles to overcome and ours was no exception. You and the entire SCA team worked with us to find a suitable solution to deliver an excellent product for the Club. You understood this was a commercial application in a residential setting and made the transition a seamless one. You never lost sight of the goal, understanding that there was a definite deadline due to our business needs. You met that deadline!

The subcontractors you provided were of the same professionalism as SCA and for that we are grateful. When it came down to the 11th hour, it was difficult to distinguish between staff and contractors. Above all, SCA provided us with a facility of which we can be most proud.

We appreciate the opportunity we had to work with you and look forward to another opportunity in the future.

Sincerely,

Paula L. Kelly, CCM, CCE
